

# PAPER FOLDING MACHINE CFM 600

Very efficient machine for paper folding up to A3 size. Easily manipulated unit allowing users to make as much as 6 types of folds. Compared to smaller CFM 500 is CFM 600 equipped with many useful features such as missing paper indicator, fine adjustment stops, etc.

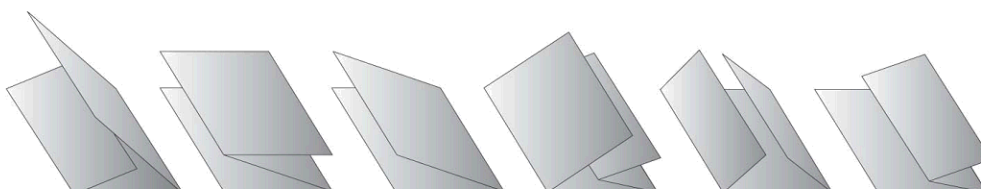

## Features:

- Heavy-duty metal construction
- Automatic friction feed system
- Self adjusting to paper thickness
- Simple adjustment for paper size
- Fine adjustment of stops
- Load up to 300 sheets
- Missing paper indicator
- Variable speed control
- Easy to use

## Technical data:

- Folding speed: control speed: 7,000 sheets per hour (A4)
- Kinds of folding: standard letter, concertina, single, double, parallel, brochure, half concertina

- Sheet size: A3 , (B4), A4 , (B5), A5
- Weight of the paper: 80 -160 g / m<sup>2</sup>
- Feeding board capacity: 300 sheets (80 g/m<sup>2</sup>)
- Dimension
  - - working position: l = 770 mm, w = 445 mm, h = 500 mm
  - - transportation position: l = 345 mm, w = 445 mm, h = 350 mm
- Weight of the machine: nett 23 kg, gross 27,5 kg
- Voltage / frequency: 230 V / 50 Hz
